EDUCATION

Manipal Institute of Technology

B.Tech in Computer Science and Financial Technology

Aug. 2023 – 2027

Manipal, India

- CGPA: 7.16

Red Rose Public School

AISSCE (CBSE), Grade 12

2021 – 2022

Bhopal, India

- Grade: 85.2% SAT: 1440

EXPERIENCE

Defense Research and Development Organization (DRDO)

Software Engineering Intern

Dec. 2025

India

- Developed a centralized requisition management platform to streamline internal procurement and asset allocation workflows.
- Architected workflow logic for secure organizational data handling, routing, and tracking across internal processes.

Indian Institute of Technology (IIT) Indore

Research Intern

Jun. 2025 – Jul. 2025

Indore, India

- Implemented a local Ethereum blockchain environment using Ganache for secure transaction simulation and testing.
- Researched smart contracts, DApps, EVM internals, gas optimization, and Solidity deployment patterns.

PROJECTS

Omelette – Raycast AI Extension

TypeScript, Raycast API, OpenRouter API

- Built a native macOS Raycast extension with streaming LLM responses, persistent chats, model switching, and keyboard-first writing actions.

Real-Time Sensor-Fusion & Arc Detection System

Python, YOLO, Edge Computing

- Architected an edge-computing arc detection pipeline with sensor fusion, a 200 FPS circular buffer, and dynamic high-frequency inference.

AI Loan Repayment Optimizer

Python, A* Search, AC-3 Constraint Satisfaction

- Built a debt repayment planner using A* search and AC-3 CSP techniques for budget-aware optimization and strategy comparison.

Blockchain Information Sharing Network

Python, Solidity, Ganache, P2P

- Designed a peer-to-peer information sharing network backed by blockchain smart contracts for secure data recording and access.

LEADERSHIP & ACTIVITIES

PRISM

Jan. 2025 – Present

General Secretary & SMGD Head

- Lead operations, research planning, branding, and dissemination for the intelligent systems and machine learning club.

MIST

Sept. 2024 – Present

Graphic Design Head & Board Member

- Mentor 200+ junior members and support major cybersecurity events including KernelCTF, AuroraCTF, and IndomitusCTF.

Finova

Dec. 2024 – Present

Media and Outreach Head

- Manage a 100+ member design operation, social scheduling, and collaborative media projects.

SKILLS

Languages : Python, TypeScript, C, C++, Java, JavaScript, SQL, PL/SQL, Solidity, HTML/CSS, $\text{\LaTeX}$

Frameworks & Tools : React, Next.js, Vite, Raycast API, Git, Vercel, Streamlit, Flask, Ganache

AI / ML : YOLO, scikit-learn, LLM integration, A* search, AC-3, computer vision, optimization

Systems & Other : Blockchain, CLI development, edge computing, sensor integration, cybersecurity

Certifications : IIT Indore research internship certification; Coursera Python specializations; organizing committee recognition for Techtatva, Aurora Techweek, and Indomitus.
